

REMARKS

In response to the election requirement in the Office Action of June 30, 2003, Applicant hereby elects without traverse Species 1 of the claimed invention including p-channel thin film transistors connected in series in a pixel portion wherein a pixel electrode is connected to a data line without any n-channel thin film transistor connected therebetween. Claims 2-6, 8-12, and 14-19 read on the elected Species 1.

New claims 43-62 have been added and also read on the elected species. Examination on the merits is requested.

Respectfully submitted,

Eric J. Robinson
